DETAILED ACTION

Allowable Subject Matter

Claims 1- 26 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claims 1, 25 and 26 there is no prior art of record that teaches an electro-optical device comprising a scanning line including light-shielding parts disposed at the sides of the channel regions.

Hirabayashi et al. US Publication No. 2002/0008240 teaches scanning line (fig. 4 element 3a) disposed at the top and one side of the channel region (see figure 4 element 1a'). Hirabayashi also teaches a data electrode made of light-shielding material disposed on the top side of the scanning line (see [0113] and figure 4 element 6a). However, Hirabayashi does not teach the scanning line acting as a light-shield (not formed of a light-shielding material) and disposed on both sides of the channel region.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
